

Precise Singulation for CANOLA

AIR-PRO®
PLANTERS

Canola producers will appreciate the precise singulation and spacing accuracy delivered by the canola seed disc from Great Plains. The specially-designed disc is part of our already extensive list of Air-Pro® Meter Discs for seeding corn, soybeans, milo, sunflowers, cotton, wheat, and sugar beets.

The Air-Pro® Meter's brushes and seed tube have also been optimized for seeding canola. Changes to the brushes and seed tube not only allow for canola singulation, but have also improved performance for other small seeds, such as milo. Seeds that are used at low rates and are prone to static cling will benefit from these changes to the Air-Pro® Meter.

Air-Pro® Meters are available on all Great Plains Yield-Pro® Planters. On some models, the Yield-Pro® Planter's 25-Series Row Unit is capable of row spacings as narrow as 10 inches (25.4 cm) – which is especially significant for canola.

For growers who want to convert an existing Great Plains Yield-Pro® Planter, a Canola Field Kit is available for purchase. Kits include the canola disc as well as the improved brushes and seed tube (see back page for kit details).

Features & Benefits

CLEAR-SHOT® - The patented Clear-Shot® Seed Tube maintains its obstruction-free "dead drop," but the seed tube material has been changed to be even more transparent, allowing the sensor greater monitoring capability.

METER BRUSHES - Great Plains increased the amount of specially formulated anti-static material in its Air-Pro® Meter brushes when developing this disc for canola singulation. Installation of brushes is simple — with only a flat screwdriver.

CANOLA SEED DISC - The newly designed canola seed disc offers a true competitive advantage with an 11-inch (27.94 cm) diameter and 250 cells. Accuracy is greatly increased as the meter wheel turns at a low RPM.

Air-Pro Meter Canola Field Kit **Part Number - 403-684A**

Contents

- 2 - 800-244C, Cable Tie 19x15 Pandu BT4S
- 1 - 817-789C, Brush, Seed Drop
- 1 - 817-827C, Seed Tube Air Meter 25 Series
- 1 - 817-991C, Disc Canola 250 Cell
- 1 - 891-118C, Brush, Strip, Long
- 1 - 891-119C, Brush, Strip, Short
