The Turbo-Max™ by Great Plains takes vertical tillage to the max! With its hydraulically adjustable gangs and three and three-quarter inch overall blade spacing, Turbo-Max levels your seedbed without creating compaction. In the fall, run the machine with gangs at an angle to bury more residue. In the spring, keep the gangs straight to create a level, vertically tilled seedbed that is perfect for planting. Call (insert dealer name) in (insert city) today to see what the Turbo-Max can do for you. (Insert dealer name) and Great Plains.
